**REPORT AND ORDER
(Proceeding Terminated)**

Adopted: July 30, 2003

Released: August 1, 2003

By the Assistant Chief, Audio Division:

1. At the request of Monterey Licenses, LLC (“Petitioner”), licensee of Station WHQX(FM), Channel 299C3, Cedar Bluff, Virginia, the Audio Division has before it a *Notice of Proposed Rule Making*¹, proposing the reallocation of Channel 299C3 from Cedar Bluff, Virginia to Gary, West Virginia, and the modification of Station WHQX(FM)’s license accordingly. Petitioner filed comments in support of the proposal reaffirming its intention to apply for the channel, if reallocated to Gary, West Virginia. No other comments were received.

2. The proposed reallocation was filed pursuant to Section 1.420(i) of the Commission's Rules, which permit the modification of a station's authorization to specify a new community of license without affording other interested parties an opportunity to file competing expressions of interest.² As stated in the *Notice*, Gary is an incorporated city located in McDowell County, West Virginia, and has a 2000 U.S. Census population of 917 persons. It has its own mayor, police department, fire department, elementary and high schools, and several churches. Its businesses include, among others, Gary Fabrication, Inc., Gladys’ Kitchen, TJ Restaurant, TruLine, Inc., First National Bank of Keystone, Bantam Market, Residents of Gary are cared for by doctors and dentists at the local Tug River Health and Dental Clinics, Tug River Continuous Care Center and the Nursing Home Group. Since petitioner does not request the relocation of its transmitter site, a gain and loss area study is not required. Moreover, since the proposed site will not provide a 70 dBu signal over 50% or more of any urbanized area, a *Tuck* analysis is not necessary³

² See *Amendment of the Commission's Rules Regarding Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 4870 (1989), *recon. granted in part*, 5 FCC Rcd 7094 (1990) (“*Change of Community*”).

³ See *Headland, Alabama and Chattahoochee, Florida*, 10 FCC Rcd 10352 (1995); *Huntington Broadcasting Co. v. FCC*, 192 F.2d 33 (D.C. Cir. 1951); *RKO General, Inc.*, 5 FCC Rcd 3222 (1990); and *Faye and Richard Tuck*, 3 FCC

3. We believe the public interest would be served by reallocating Channel 299C3 to Gary, West Virginia, since it would provide the community with its first local aural transmission service, without depriving Cedar Bluff of its sole local service.⁴ An engineering analysis has determined that Channel 299C3 can be reallocated to Gary without the imposition of site restriction at petitioner’s presently authorized site.⁵ In accordance with Section 1.240(i) of the Commission’s Rules, we modify Station WHQX(FM)’s license to specify operation on Channel 299C3 at Gary, West Virginia, as its new community of license.

- (b) Upon grant of the construction permit, program tests may be conducted in accordance with Section 73.1620.
- (c) Nothing contained herein shall be construed to authorize a change in transmitter location or to avoid the necessity of filing an environmental assessment pursuant to Section 1.1307 of the Commission's Rules.
